

Pag-IBIG Fund's Story:

Collective Progress Through Transformative Reforms

03 November 2025

Presented by ATTY. KARIN-LEI "Kalin" F. GARCIA

ASSA Working Committee

Pag-IBIG Fund's Core Mandates and The Challenges

Pag-IBIG Fund Core Mandate

*Pag*tutulungan sa kinabukasan: *I*kaw, *B*angko, *I*ndustriya, at *G*obyerno

PROVIDENT SAVINGS

Develop and promote an integrated nationwide, sound, and viable tax-exempt mutual **PROVIDENT SAVINGS SYSTEM** suitable to the needs of the employed and other earning groups

HOME FINANCING

Promote home ownership through the extension of **AFFORDABLE HOUSING LOANS**, and stimulate the shelter industry by providing developmental and institutional financing

The Pre-Reform Challenges

SUB-OPTIMAL SAVINGS

**Low Household
Savings Participation**

**Gross Savings Rate
Participation**

**Financial
Literacy Gap**

**Behavioral
Drivers**

**Impact on
Inflation**

Most families cannot build substantial financial reserves, limiting their ability to achieve long-term goals like home ownership and retirement.

10.8% of GDP in 2022
(lowest in ASEAN)

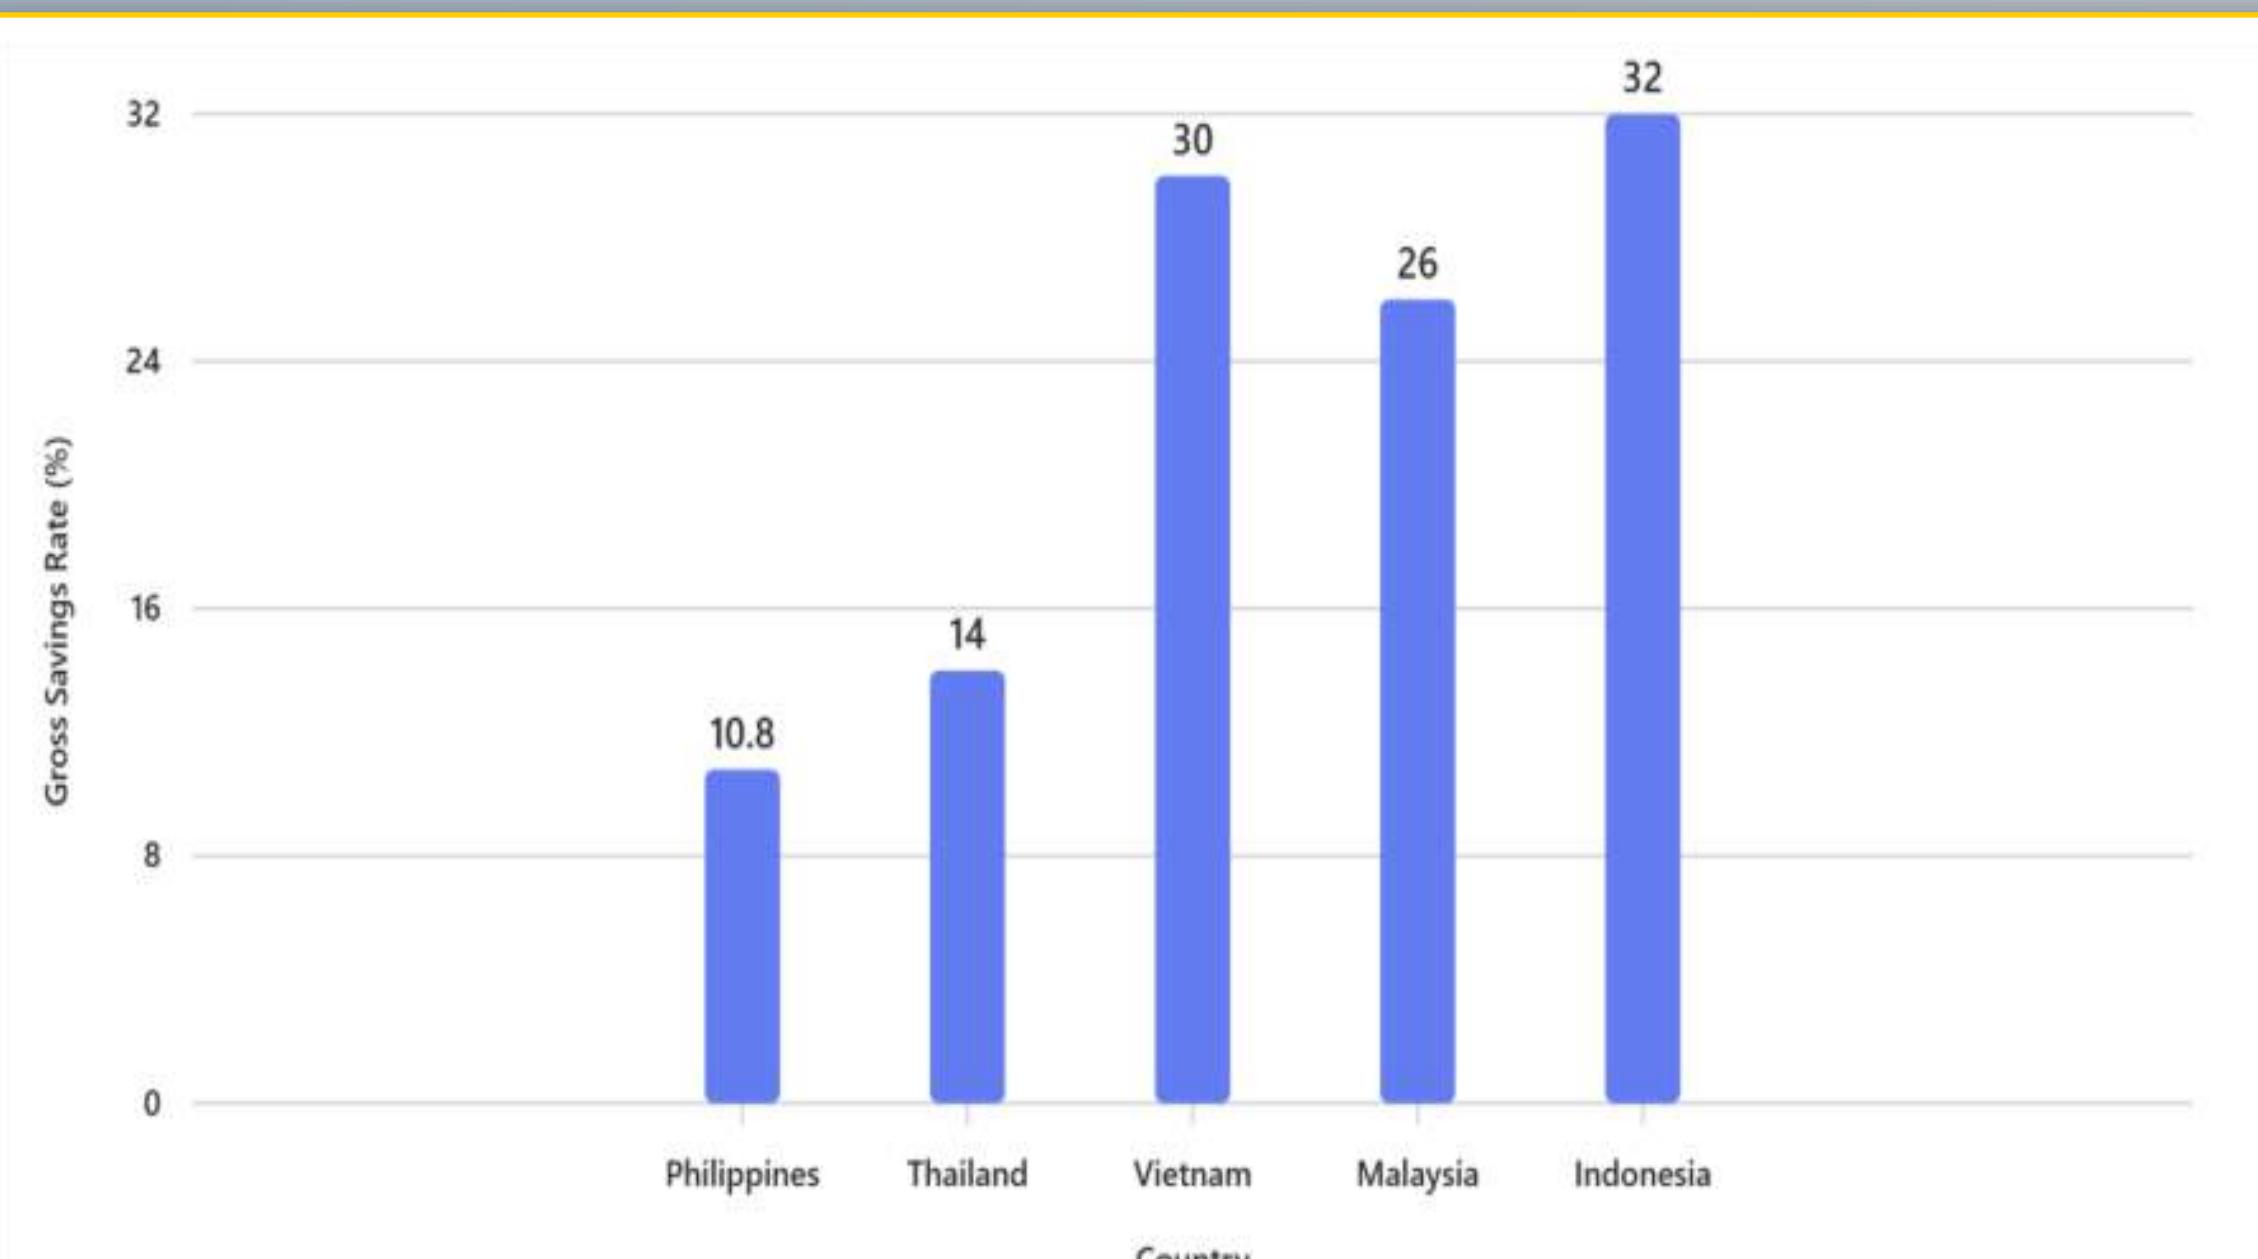

Maintained ~56%, but formal bank account penetration stayed low at ~23%.

Recognized for their resilience and resourcefulness but driven by poor habits

Recorded high inflation at 5.8%, which significantly eroded household purchasing power.

FILIPINO SAVINGS BEHAVIOR

The Pre-Reform Challenges

This chart shows how much each country saves compared to its total income in December 2022:

- Philippines: Only 10.8%, meaning for every ₱100 earned, just ₱10.80 is saved.
- Indonesia: 32%, Vietnam: 30%, Malaysia: 26%, Thailand: 14%.

Filipinos, as a whole, save **far less** than most ASEAN neighbors. This highlights why **sub-optimal savings** is a major challenge for Pag-IBIG and national financial security.

The Rise of Slums: When & Where?

Navigating Informality: Perils and Prospects in Metro Manila's Slums,
The World Bank (2017)

“Slum settlements” were established as early as the 1920s and gradually increased over the years. **Slum development peaked in the 1970s and 1980s** when approximately half of all current settlements were established, continued at a high rate in the 1990s, and began to slow down following 2000. While Manila saw the most slums established prior to the 1970s, more settlements were established in Muntinlupa and Quezon City during the peak period between the 1970s and 1980s and Quezon City continued to see the development of slum settlements at higher rates into the 1990s and 2000s.

The Pillars of Our Transformation

Housing Loan Interest Rates

PHILIPPINES

Pag-IBIG Fund

**5.0% to 8.5%
(variable by term)**

- a. Regular rates:
5.75% (1-year fixing),
- b. 6.25% (3-years),
- c. up to 9.75%
(30-years).

Special programs:

- 3% for socialized housing (first 5 years);
- 4.5% promo for loans up to ₱1.8M (first 3 years)

INDONESIA

Tabungan Perumahan Rakyat (TAPERA)

6.25% to 8.8% p.a.

Subsidized FLPP mortgage: ~5% fixed for 20 years for low-income participants

CAMBODIA

National Social Security Fund (NSSF)

6.5% to 8.00% p.a.

Cambodia is working on a National Housing Policy and has established some social housing initiatives, but a widespread government backed loan schemes for general home acquisition is less prominent compared to Brunei and Vietnam.

Policy Focus: The Focus is on creating a conducive environment for the private sector to develop affordable housing improving access to housing finance, and implementing regulatory reforms.

Financial Access: Housing Finance is primarily available through commercial banks, which offer standard mortgage loans with competitive interest rates (e.g. around 7.00% p.a. for local currency loans)

THAILAND

Government Housing Bank (GHB)

4.2% to 7.3% p.a.

Promotional rates:
0.99% (Year 1),
3.50% (Year 2),
4.20% (Year 3);
average 2.9% for first
3 years, then MRR
~6.245%.

Special programs for government personnel: 1.59% first year, then floating

MALAYSIA

Employees Provident Fund (EPF)

3.9% to 4.7% p.a.

EPF allows withdrawals for home purchase or loan repayment (up to 90% of balance)

VIETNAM

Vietnam Bank for Social Policies (VBSP)

6.5% to 8.8% p.a.

State-owned banks:
5%–7%; initial promo rates as low as 5% for first 6 months.

Private banks: 5.5%–6.5%, flexible packages.

SINGAPORE

Central Provident Fund (CPF)

1.8% to 3.5% p.a.

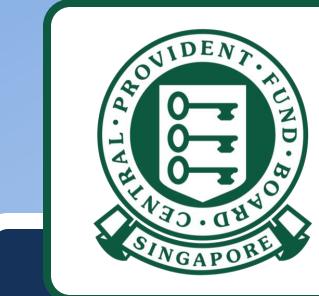

Singapore has 3 Housing Schemes:
a. The Enhanced CPF Housing Grant (EHG) is available to first-time applicants who are either applying for a new Build-To-Order (BTO) flat or buying a resale flat on the open market.

b. The Proximity Housing Grant (PHG) supports buyers purchasing a resale flat on the open market to live with or near their parents and/or married children.

c. The Home Purchase Planner (HPP) helps you plan for a home purchase – regardless of your current life stage – by taking your current financial and housing situation into account and illustrating the impact of your home purchase on your retirement.
